

Big Switch - 4 Lamps

The module contains of a 3-position switch and 4 lamps lighting in orange and pink

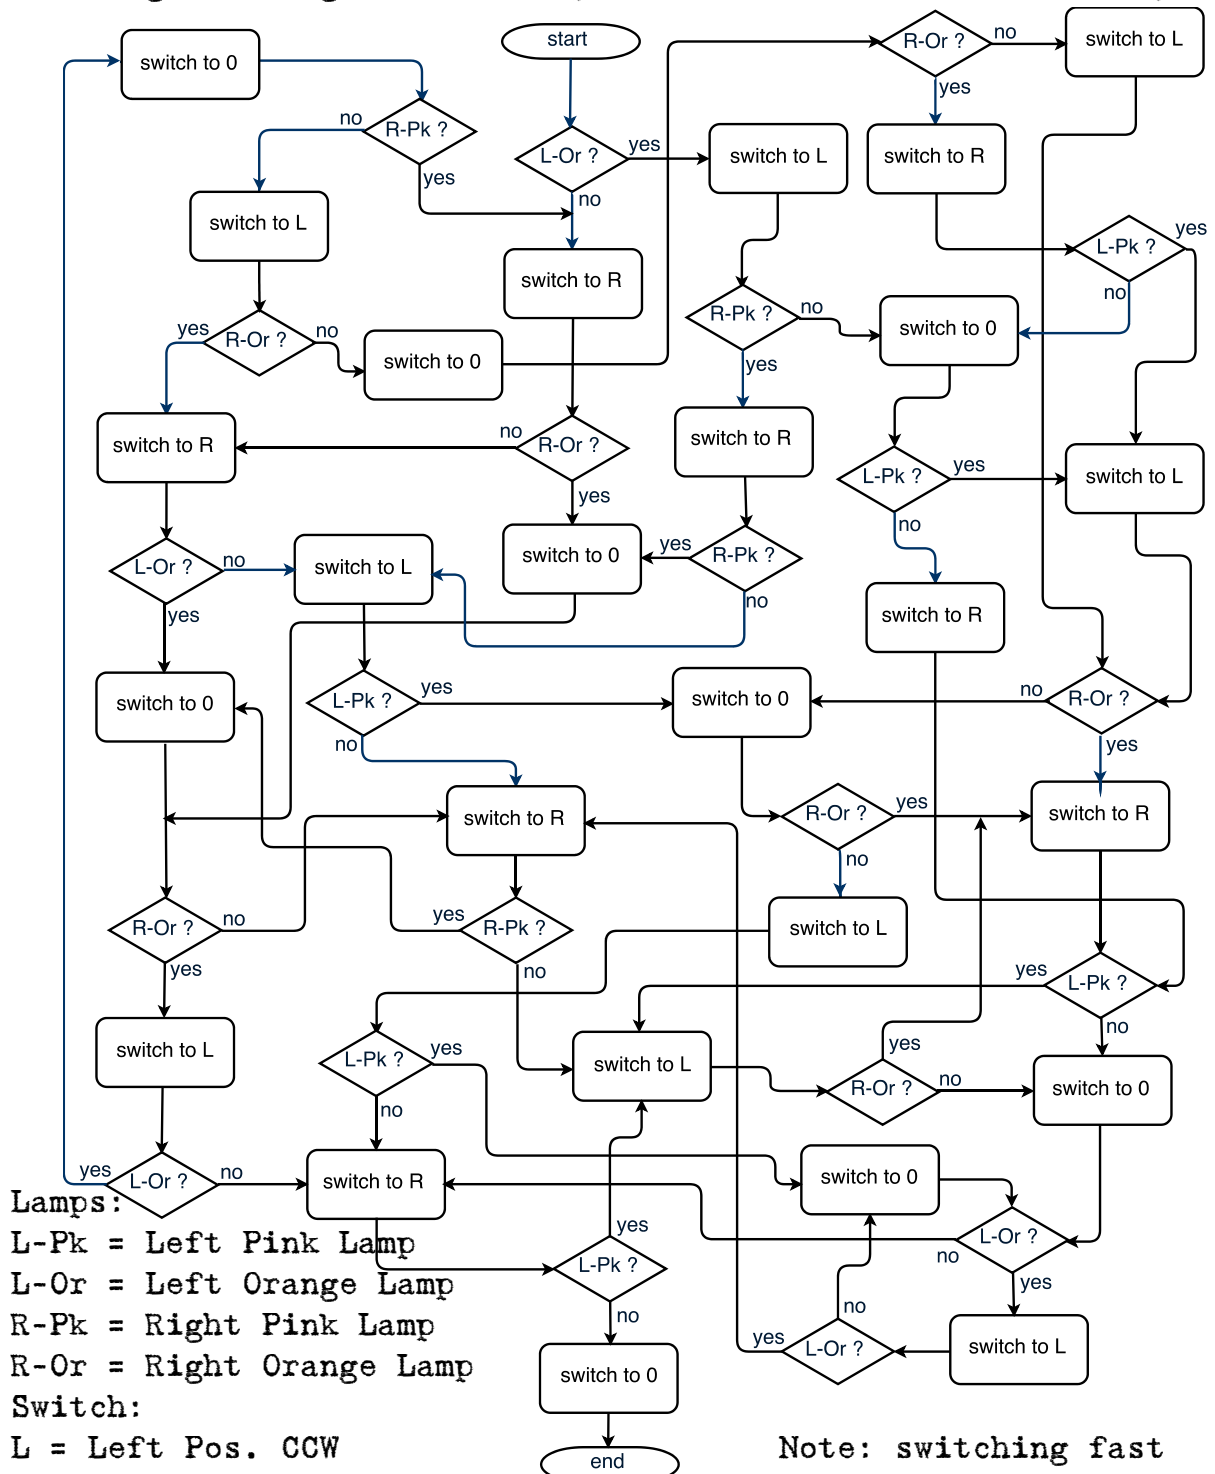

Follow the flow chart:

The question rhomb asks if the specified lamp is lit.

The corresponding action box shows to which position the switch have to be rotated.

If all goes wrong, switch to position '0' and start from top!

Note: switching fast
from L->R or R->L
Don't pause on '0'
